\*\*\* ANNOUNCEMENT \*\*\*  
\*\*\*

--File 990 - NewsRoom now contains May 2002 to present records.  
File 993 - NewsRoom archive contains 2002 records from January 2002-April 2002. To search all 2002 records, BEGIN 990,993.  
\*\*\*

--Alerts has been enhanced to allow a single Alert profile to be stored and run against multiple files. Duplicate removal is available across files and for up to 12 months. The Alert may be run according to the file's update frequency or according to a custom calendar-based schedule. There are no additional prices for these enhanced features. See HELP ALERT for more information.  
\*\*\*

--U.S. Patents Fulltext (File 654) has been redesigned with new search and display features. See HELP NEWS 654 for information.  
\*\*\*

--Dialog NewsRoom is now available. BEGIN NEWSROOM to use the files in a OneSearch. See NEW FILES RELEASED (below) for individual file numbers.  
\*\*\*

--Connect Time joins DialUnits as pricing options on Dialog. See HELP CONNECT for information.  
\*\*\*

--CLAIMS/US Patents (Files 340,341, 942) have been enhanced with both application and grant publication level in a single record. See HELP NEWS 340 for information.  
\*\*\*

--SourceOne patents are now delivered to your email inbox as PDF replacing TIFF delivery. See HELP SOURCE1 for more information.  
\*\*\*

--Important news for public and academic libraries. See HELP LIBRARY for more information.  
\*\*\*

--Important Notice to Freelance Authors--  
See HELP FREELANCE for more information  
\*\*\*

For information about the access to file 43 please see Help News43.

**Palm Acquires Internet -Calendar Leader AnyDay.com; Deal Fuels Palm's Leadership as a Wireless Internet Solutions Provider. (Company Business and Marketing)**

Cambridge Telecom Report, pNA

June 5, 2000

Language: English Record Type: Fulltext

Document Type: Newsletter; Trade

Word Count: 1101

TEXT:

Palm, Inc. (Nasdaq: PALM) Wednesday took a large step toward implementing its vision to put the power of the **Internet** into the hands of mobile users. The company announced a definitive agreement to purchase AnyDay.com, a leader in dynamic, **Internet**-based calendar solutions. This acquisition - Palm's first as an independent company - will deliver up-to-the-minute personal services simply, anytime and anywhere to Palm-powered and other handhelds, freeing users from being tethered to their desktop PCs.

The proposed acquisition by the world's leading handheld maker is valued at about \$80 million in cash and stock options.

"Combining AnyDay's leading **Internet**-based calendar with Palm's handheld solutions creates a solid cornerstone for our vision of putting the power of the **Internet** and wireless access into the hands of Palm handheld users," said Carl Yankowski, Palm's chief executive officer. "The **Internet** already is going mobile, and by linking mobile **Internet**-based

services to your pocket calendar, we can drive this trend and deliver a powerful combination for busy professionals, parents and students alike. The possibilities are infinite, and they make the Palm experience even more valuable."

"In Palm, we have found a company that shares our vision of the future to bring new services and features online so that consumers and business people can enjoy anytime, anywhere access to the **Internet**," said Steve Watts, chief executive officer and co-founder of Cambridge, Mass-based AnyDay. "By becoming an integral part of Palm, we'll be far better able to develop new mobile services that delight consumers and business people, and help them conquer their schedules."

#### Personal mobile portal with time and location services

Palm will leverage its expertise in mobile- and wireless-based personal-information management with the exploding capabilities of the wireless **Internet** and wireless access. Palm also will develop a mobile portal of personal services with time- and location-based services at the core. These services will be available to Palm and Palm OS users -- wireline or wirelessly, handheld or phone -- and will build on the foundation of Palm's heritage of simplifying people's lives.

"Imagine having an active, dynamic calendar comprised of specific content you choose," said Barry Cottle, chief operating officer, Palm's Content and Access Business Unit, to whom Watts and AnyDay employees will report. "Think how much more productive you will be when your calendar automatically populates itself with the right information, makes arrangements on your behalf and keeps you posted when changes occur."

Cottle painted these pictures: -- You already can choose your flights from a Palm handheld, but imagine that this information is automatically incorporated into your calendar, that your handheld alerts you of flight delays, and that once you arrive, you automatically receive local and timely information of interest. You get directions to your hotel, tips on the best restaurants, information on local entertainment and sporting events and easily make reservations for them all at the tap of a stylus.

-- Or perhaps you're a fan of Limp Bizkit, the Dave Matthews Band or Carlos Santana. Because you've signed up for notifications, your Palm handheld tells you that your favorite musicians are about to release a new CD and that you can receive it before it goes on sale at retail. Or, you see that a new tour schedule has just been released, and you can secure and pay for premium seats.

-- Suppose you're a member of a soccer dads and moms' carpool. If one driver finds he or she can't drive as scheduled, a quick poll of other drivers -- via their dynamic calendars -- can be taken and new assignments made without ever making a phone call. The same efficiency can be applied to busy executives; a dynamic **calendar** can identify potential **matches** for a **meeting** among a half-dozen **attendees**.

Businesses already can enhance employee productivity with AnyDay software, which synchronizes with the most popular enterprise calendar packages including Outlook, Lotus Organizer, ACT and GoldMine, as well as Palm and Windows CE handhelds.

"The services and applications possible from this pairing are stunning and inspiring," said Andrew Seybold, editor in chief of Andrew Seybold's Outlook, based in Boulder Creek, Calif. "Palm has significantly advanced its vision with the acquisition of AnyDay. The time- and location-based view of the wireless world that Palm gives you will be one of the best ways to use the **Internet** .

"Allowing handheld users real-time and wireless access to dynamic **Internet** -based calendars will enable an abundance of time-saving applications. From secure schedule-sharing to event notification, the value of handhelds will rise substantially for consumers and businesses," continued Seybold.

#### Benefits for AnyDay users

Registered users can store, access and update their information on AnyDay.com's **web** site via a desktop terminal, cradle or - soon -- wireless handhelds and phones. Current AnyDay.com users can do the following:

-- Share calendar, contacts or notes with others in a defined group, including co-workers, family members or classmates;

-- Schedule and reschedule meetings quickly and efficiently;

-- Choose from a wide variety of rich, localized content, from

sports, film, and TV schedules to trade shows;

-- Receive reminders of time-sensitive events, such as business deadlines and personal celebrations such as birthdays and anniversaries; and

-- Synchronize w/ Palm's simple one-touch HotSync software to leading software programs.

The AnyDay service is available to mobile **Internet** users everywhere from AnyDay.com, and via a link from two Palm **web** sites ([www.palm.com](http://www.palm.com) and [www.palm.net](http://www.palm.net)). The users of the more than 6 million Palm handheld units sold, can immediately take advantage of this service.

#### Acquisition details

The closing of the transaction - which is subject to Hart-Scott-Rodino antitrust review - is expected in about two months.

AnyDay.com employees will continue to work from current headquarters in Cambridge, Mass., and Palm thus establishes a larger East Coast presence.

[www.palm.com](http://www.palm.com) and [www.AnyDay.com](http://www.AnyDay.com).

AnyDay.com, Inc., the creator of the **Internet**'s premier time management solution, was founded in 1998 and has headquarters in Cambridge, Mass. By extending the capabilities of the online calendar with group organizing, events directory, integrated e-mail scheduling system and more, AnyDay.com empowers people to efficiently organize all aspects of their professional and personal lives.

Palm, Inc. is the leading provider of handheld computing devices (IDC, Dec 1999), including the Palm III, Palm V and Palm VII series of handheld computers. The Palm OS platform is the foundation for the industry-leading handheld computers from the company as well as products from its strategic partners such as IBM, QUALCOMM, Franklin Covey, Handspring, TRG and Symbol Technologies. Platform licensees also include Sony and Nokia. Designed to support the increasingly mobile and geographically dispersed nature of information management, the company's handheld solutions allow people to carry their most critical information in their pockets.

#### TEXT:

By Steve Higgins

On Technology Inc. last week released its Meeting Maker group scheduling software -- two months late, but offering users a welcome

Macintosh face in a crowd of mostly PC-based schedulers.

The software, from Mitch Kapor's 3-year-old firm, is designed to provide the standard array of scheduling tools to help users automate the process of determining the best time and place for meetings, company officials said.

Meeting Maker departs from the throng of PC-based offerings by providing those scheduling capabilities for Macintosh users on AppleTalk LANs and stressing simplicity, according to officials and early users.

"They've stayed with a very simple interface," said Mark Loncar, a technical supervisor at the Los Angeles office of advertising firm BBDO Worldwide Inc. "You don't even need the manual to get used to it."

That simplicity is important to the product's appeal, users said. Many companies adopting **network** schedulers to sift through a morass of personal schedules and shared resources have found users are reluctant to take to the programs.

"We had to look for something that people wouldn't be afraid to use," said a **network** analyst at a greeting-card company in the Midwest who asked to remain anonymous. "Meeting Maker provided the best level of functionality and ease of use we've seen."

The company also examined ASD Software Inc.'s Planisoft, a scheduler designed for Macs and PCs on NetBIOS LANs. Planisoft provided a full roster of features, but is not as easy to use as the AppleTalk-based Meeting Maker, the analyst said.

Ease of use is critical for schedulers such as **Meeting** Maker, which **schedule meetings** by matching suggested times with the personal calendars of all proposed **attendees**. If users don't update their personal calendars, the program can't schedule meetings reliably.

"The design of our organization requires a lot of [ad hoc] scheduling of meetings and allocating conference rooms," Loncar said.

Meeting Maker also features an "auto-pick" feature that automatically proposes meeting times based solely on a list of suggested **attendees**, company officials said.

Meeting Maker, available from most resellers of Macintosh products, is priced at \$495 per five-user pack and \$895 per 10-user pack.

On, which has offices in Cambridge, Mass., and Hercules, Calif., can be reached at (617) 876-0900 or (415) 724-8818.

Tennis Players Have a New Tool to Get More Court Time

NEW YORK, May 26 /PRNewswire/ -- Today's launch of Tennis.com's "Catch a Match" powered by ActivityNet provides tennis players with a new tool to get more court time.

The free system -- located at <http://www.tennis.com> -- uses ActivityNet technology to allow individuals to **schedule matches**, send **invitations** and meet other players online. Additional services include powerful search tools to find regional retailers and places to play.

"We are thrilled to offer ActivityNet's technology as an enhancement

to our 'Catch a Match' feature," says Liza Horan, Director of Tennis.com. "When Forbes magazine named Tennis.com one of 'The Best of the Web,' they noted the potential of this program. Now we've upgraded our popular tool with unique technology that delivers an easy-to-use module free to our users."

ActivityNet provides robust web solutions for the time consuming and repetitive tasks associated with organizing activities such as finding participants, finding local facilities and communicating and coordinating with attendees . The service also allows individuals to create personalized profiles based upon their interests.

"We're proud to partner with an organization that has been the industry resource for tennis enthusiasts on the web , " said Abir Bhattacharyya, ActivityNet's Co-founder and Chief Executive Officer. "Through our alliance with Tennis.com, we will provide a range of innovative web services that will yield significant benefits for Tennis.com's users."

Tennis.com is the official website of Tennis Magazine, owned by Miller Publishing Group. Since its May 1996 launch, Tennis.com has delivered top coverage of the game and how to play it through news, instruction, equipment, travel and fitness content. Among other interactive services, Tennis.com features a searchable gear guide that provides information and reviews of equipment based on performance, cost, playability and other variables.

ActivityNet develops and implements new applications for Internet websites that improve the utility of the site for the website's members. ActivityNet is the developer of ActivityEnabler(TM), the industry's most comprehensive tool for organizing offline recreational and social activities online.
